## WORK EXPERIENCE

### TEDS INC

JULY 2014 - PRESENT

#### Technical Consultant

Blacksburg, Virginia

Involved with installation and configuration of TEDS Talent Management Suite, for both premise and hosted customers. Worked with multiple Fortune 500 customers to gather technical requirements and used that information to build and maintain custom interfaces and applications that were within budget and scheduling constraints. Performed server capacity planing and performance analyses for Linux and Windows based systems. Embraced IaC principles by leading the development of an automated deployment tool that utilized AWS CloudFormation to deploy a customer's entire TEDS Stack, with tools to assist in management, monitoring, fault tolerance, and maintenance, to the cloud.

Platforms Used: JBoss|Tomcat Windows|Linux MSSQL|Oracle .Bat|Bash

### WE ARE INTERSTELLER

MARCH 2011 - MAY 2013

#### System Administrator

Christiansburg, Virginia

Small project that was started among friends to build and design amazing software that was out of this world. Began by setting up virtual and physical server space for projects, collaboration tools to increase communication and accountability for team members spread across the country. Put in place a web based billing and project management software to allow a one stop shop for client communication and task management.

Platforms Used: Atlassian|OSX Server|Linux HTML|CSS|PHP MySQL

### ONLINE INTUITION

OCT. 2004 - NOV. 2005

#### Intern

Martinsville, Virginia

Local business that ran consulting services. Worked alongside Microsoft Certified Professionals to assist with networking, system troubleshooting, web hosting/web design, server maintenance, DNS, and home computer maintenance/upgrades.

Platforms Used: Windows Server Cisco Switches HTML|CSS
